## Modern Curriculum

Our modern curriculum is designed to equip students with the knowledge, skills, and competencies needed to thrive in today's rapidly changing world.

Embracing innovation and flexibility, our curriculum goes beyond traditional subjects, integrating technology, critical thinking, and real-world applications.

# Play School & Nursery

A home away from home with a hygienic environment for the young ones, Eden Angels School is a wonderful world of fun and learning. We plan and create activities that help growing children in developing learning abilities. At Eden Angels School we provide an enlightening and safe environment where children enjoy playing and learning. Play-centric activities foster the major domains of development such as social, emotional, language, cognitive, sensory, fine and gross motor development. We give children a new stimulating experience through good story books, ample play materials, music, puppetry, outings and a host of events conducted through out the year. We motivate the children to learn with joy and to become confident, independent, friendly and well mannered.

# Kindergarden

The most important period of life is from birth to the age of six where most of the learning happens. Eden Angels initiates this holistic journey which strives to have a profound impact on the child's future by providing the right context of learning through the IEYC. The IEYC ( International Early Years Curriculum ) is a research based curriculum that links early years to formal education. It offers a robust framework for active learning, while harnessing a child's curiosity in an enabled environment. Our kindergarten children explore different streams by applying the IEYC in their day to day learning which perfectly balances child initiated and teacher scaffolded activities.

# Primary School

The contours of knowledge know no bounds. Eden Angels recognizes this feature and gives each student rigorous exposure to group activities, seminars, visual learning and project works. The teaching process at Eden Angels School helps to garner and harness the varying potential within each student. The aim is to promote and intensify performance and encourage students to be fore-runners in all fields
